SIMPOSIUM 2007
24-25 APRIL 2007 IN BERLIN
THE WORLD'S ONLY EVENT ENDORSED BY THE SIM INDUSTRY

London, January 18, 2007: The SIM community, representing 90% of SIM cards sold in the world, will meet the whole mobile eco-system and beyond in Berlin at SIMposium2007 on 24th & 25th April 2007, the new show for marketing, business and technology innovators.

Created by SIMalliance, the world's leading association of SIM card vendors (Eastcompeace, Gemalto, Oberthur Card Systems, Giesecke & Devrient, Incard, Prism, Sagem-Orga, Sandisk & XPonCard), **SIMposium 2007 is the first in a series of international conferences & exhibitions.**

SIMposium 2007 will bring the mobile eco-system's actors together in a unique blend of presentations, workshops, interactive sessions and social events to debate latest trends in mobile services and architectures, identify new business opportunities and see demonstrations and get explanations about the latest successful live mobile services & content.

Expected to accommodate 300 delegates and 30 exhibitors, SIMposium 2007 is aimed at:

- Marketing Managers
- Business Development Managers
- Market and Product Managers
- Service Designers
- SIM Managers

across the entire mobile value-chain:

- Operators
- MVNOs
- Handset & Device Manufacturers
- Application and Content Providers
- Hardware, Middleware & Software Vendors
- Integrators
- Brand & Media

About SIMalliance:

Putting the SIM at the heart of the new mobile eco-system

Over the past five years SIMalliance has become one of the world's foremost commentators in the mobile business. By operating outside the singular commercial interests of any individual SIM card player, the association has been able to pinpoint the mission critical services on the horizon and help steer their development to meet the practical needs of the mobile market.

With SIMalliance members now responsible for nine in every ten SIM cards sold worldwide, the collective vision of the association is uniquely placed to predict how SIM developments will impact on the new generation of mobile services. From their standpoint, the challenge couldn't be clearer for the protagonists in the mobile eco-system.
